

SAMPLE DOCUMENT - FICTITIOUS DATA FOR DEMONSTRATION ONLY

Owner Project Specification - Pressure Vessels (extract)

Specification SPEC-PV-001 Rev 3, issued by the owner for all pressure vessels of the project.

Owner	Demo Energy Ltd. (fictitious)
Operator	Demo Operations Co.
Country of installation	Brazil
State/Province of installation	Rio de Janeiro
City of installation	Macaé
National Board registration required	Yes
Canadian registration required	No
Design life	25 years

Corrosion

Shell corrosion allowance internal: 6 mm minimum for wet CO2 service.

Loadings

Wind loading code	ASCE 7-22
Basic wind speed	42 m/s
Risk category	II
Exposure category	C
Topographic factor	1.0
Site elevation	15 m
Seismic loading code	ASCE 7-22
Site class	D

Fabrication and painting

Coating specification	SPEC-PT-004 system C
Coating permitted prior to pressure test	No
Fireproofing	No

General notes: all welding procedures to be qualified per ASME IX. Hydrotest water chloride below 50 ppm.
